SAGE ENERGIES

OILFIELD ASSET & TECHNOLOGY ADVISORS

Pan African Oil & Gas Consultancy
Nigeria · Ghana · Seychelles
Founded 2025 · Part of the SAGE Group

Sage Energies is Africa's premier integrated oil & gas consultancy — delivering world-class technical, commercial, governance and educational advisory services across the full energy value chain. Proudly Pan African, locally embedded and globally credentialed, we serve operators, NOCs, IOCs, DFIs and investors across West Africa and beyond.

OUR 12 SERVICE LINES

01 Asset Intelligence & Viability Assessment
Technical due diligence, performance benchmarking, risk assessment and economic modelling to support asset acquisition, development or divestiture decisions.

02 Project Definition Services
Transforming upstream opportunities into investment-ready projects through objective setting, technical translation, CAPEX/OPEX modelling and ESG-aligned governance.

03 Production Optimisation & Reservoir Management
Advanced analysis and data-driven strategies to maximise hydrocarbon recovery, extend field life and reduce operational risk.

04 Facilities, Process & Pipeline Engineering
End-to-end engineering solutions for surface facilities, process systems, and pipeline design, integrity management and optimisation.

05 Drilling, Completions & Wells Management
Full well lifecycle advisory — from drilling programme design and rig selection through completions, workover planning and well integrity management.

06 Operations Management
Operational excellence programmes, maintenance management, HSE compliance and KPI-driven performance management for day-to-day oilfield operations.

07 ESG Advisory Services
Environmental impact assessments, IFC-aligned ESG frameworks, GRI/TCFD reporting, community engagement and carbon reduction strategies.

08 Alternative & Renewable Energies
Energy transition strategy, solar and wind advisory, gas-to-power, LNG monetisation, flare gas reduction and net-zero roadmap development.

09 Corporate Governance
Governance framework design, regulatory compliance, enterprise risk management, anti-corruption programmes and board-level reporting.

10 Board Advisory
Independent strategic counsel to boards on major investment decisions, M&A, portfolio strategy, board effectiveness and crisis management.

11 Executive Education
Bespoke technical masterclasses, leadership development programmes and ESG training designed to build capability across Africa's energy sector.

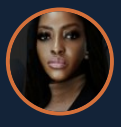

12 Adjacent Industries
Technical expertise and project financing advisory across the Mining Value Chain, Value Agriculture & Agri-Processing, and Alternative Energy & Fuels industries.

LEADERSHIP

Valerie B. Lawson
Founder & CEO · Chairwoman, Sage Group of Companies

Chemical Engineer with **25 years** of industry experience across the full oil & gas value chain in **15+ countries**. Currently Head of Project Technical Management at **Pecan Energies** (Ghana, US$3.5B). Delivered **EGINA FPSO** (OML 130, US$15B+), OFON Phase II and PECAN Field Development. Baker Hughes roles (to 2022): Head of Regional Operations for Production Technologies, Director of Products, and Director of Key Accounts. · BEng Chemical Engineering (1st Class) — University of Bradford · MSc Technology Entrepreneurship — UCL & London Business School · Global Executive MBA — IESE Business School, University of Navarra

Joan Nweke FNSE · FNICE · EMBA
Director, Business Development

Oil & Gas Executive and Engineering Consultant with **20+ years** of expertise in offshore engineering, business analysis and project management. Master Trainer & Coach and champion of gender inclusion in Africa's energy sector. Team Lead, Women in Engineering Committee, Federation of African Engineering Organizations (WIE-FAEO). Fellow, Nigerian Society of Engineers (FNSE) · Fellow, Nigerian Institution of Civil Engineers (FNICE) · Executive MBA (EMBA)

Valerie Ofoma
Director, Engineering & Projects · CEng · PMP

Chartered Chemical Engineer and Oil & Gas Project & Engineering Leader with **20+ years** of international experience across offshore and onshore developments, including the **USAN deepwater project**. Expertise spans concept development, FEED, detailed engineering, study management, capital project delivery and business development. Former Managing Partner with a strong track record of multidisciplinary leadership and strategic growth.
